PERSONAL SUMMARY

- Enthusiastic and detail-oriented Frontend Developer with a strong foundation in React.js, JavaScript, and responsive UI design, complemented by a growing expertise in data science. Experienced in building dynamic web applications with real-time features and intuitive user interface. Skilled in integrating APIs, managing state, and leveraging Firebase for authentication and data handling. Proficient in Python, data visualization (Power BI, Matplotlib), and RESTful API development. A fast learner and collaborative team player, passionate about combining frontend development and data-driven insights to build impactful user experiences.

EDUCATION

PUNE INSTITUTE OF COMPUTER TECHNOLOGY

Pune, India (Aug 2023 - Present)

B.Tech 2nd year, Artificial Intelligence and Data Science (9.95/10)

- Coursework:** Fundamentals Of Data Structures, Data Structures and Algorithms, Python Programming, Object Oriented Programming, Operating Systems, C++ Programming
- CureConnect.com – Unified Hospital Operations Suite**
Tech Stack: React.js, Flask, Firebase
Designing and developing a web-based hospital management system aimed at streamlining healthcare operations. The platform offers key features including real-time medical assistance, secure video conferencing for remote consultations, appointment scheduling, hospital locator with map integration, and inventory management. Leveraging React for dynamic and responsive user interfaces, Flask for scalable backend services, and Firebase Database for real-time data synchronization and user authentication.
- Crop Recommendation System using Weather Forecast and ML**
Tech Stack: React.js, Flask, OpenWeatherMap API
Developed a full-stack web app that recommends the most suitable crop based on real-time weather and soil data. Built and deployed a machine learning model (RandomForest) to predict ideal crops using parameters temperature. Enabled seamless frontend-backend communication via a REST API using Flask. Improved agricultural decision-making for farmers using dynamic, data-driven insights.

FERGUSON COLLEGE (91.83%)

Pune, India (Mar 2021 - Mar 2023)

- Secured a score of 99.39 percentile in the Common Entrance Test (MHT CET) with a State Rank of 1484

DR. KALMADI SHAMARAO HIGH SCHOOL (96.2%)

Pune, India (Mar 2020 - Feb 2021)

- Served as the lead Radio Jockey for the school's official radio channel, BUZZ KHS 26.6
- Volunteered at the KHS Student Leadership Conference for 2 years (2018 & 2019)

TECHNICAL & SOFT SKILLS

- Programming Languages: Python (Pandas, Matplotlib), C++, HTML, JavaScript
- Frameworks & Libraries: React.js, Express.js, Node.js
- Databases: SQL, MySQL
- Data Visualization Tools: Power BI, Tableau, MS Excel
- Microsoft Office: MS Outlook, MS PowerPoint, MS Word
- Soft Skills: Strong Communicator, Quick Learner, Adaptable, Team Player

EXTRACURRICULAR ACTIVITIES

- Learning Tabla, a Percussion instrument, since 2022

- Developed various games using Scratch, including Flappy Bird and Traffic Racer
 - Cricket enthusiast with active participation in intra-college and inter-society tournaments
 - Playing Dhol during festivals
-
